

Patient Needle Stick Reimbursement Program

The Professional Protector Plan® *for Dentists*, in partnership with The PMA Insurance Group, is pleased to offer a Patient Needle Stick Reimbursement Program. This program will reimburse the cost of blood tests for Dental Patient's when a Dental Employee has experienced an accidental Needle Stick within the Dentist's office.

What to do in the event of an accidental needle stick.

- * Have your employee flush the affected area with water.
- * Notify your Doctor and/or Nurse Manager of the incident.
- * Ask your patient to proceed to a prearranged testing location for a blood test.
- * Bloodborne Pathogens Standard requires 3 blood tests to be run:
 - HIV
 - Hepatitis B
 - Hepatitis C
- * Complete the 'Patient Needle Stick Reimbursement Form'
- * Mail this form and a copy of the original bill to the name provided at the bottom of the form.
- * A check will be sent to the individual noted on the Reimbursement Form.
